Internal Site

STRUCTURE

By Syawal

This site is for the use of Pro Amity Corporate staff only.

REQUIREMENTS

- multiple users with different access levels
- different users will have different content that will be shown to them
- have the folder structure up to 3 tiers (e.g., parent folder > child folder > child sub folder)
- have basic CRUD functions: **add** and **delete** folder, **edit** folder name, **upload** file onto folder, **add** and **delete** file
- users role: **master admin**, **admin**, **users**
- **master admin** - capable of managing all features on website: basic **CRUD** functions, manage users (add, delete, edit user and admins), manage permissions for each users (so users can upload or delete a file onto a folder in a permitted department), and manage department (add and delete department)
- **admin** - manage users (add, delete, edit users only), rest of the features same as master admin
- **users** - view file within folders in their departments, can upload or delete a file within a folder of permitted department

This site is for the use of Pro Amity Corporate staff only.
